ULTRABOND FR

Fire Rated Aluminium Composite Panel

DESCRIPTION

Leading BLUECHIP's product portfolio is ULTRABOND FR, a 4mm thick fire rated aluminium composite panel comprising of a 3mm fire retardent core, sandwiched between two aluminium or other natural metal cover sheets. ULTRABOND FR fire rated aluminium composite panel, has been thoroughly tested to Australian Standards by the NATA approved CSIRO and Warrington Fire including full room burn tests. It is ABCB CodeMark certified to comply with the building code of Australia ensuring you are specifying a quality assured product.

PRODUCT BENEFITS

CODEMARK CERTIFIED

ULTRABOND FR fire rated aluminium composite panel is ABCB CodeMark certified to comply with the building code of Australia ensuring you are specifying a quality assured product.

PVDF PAINT SYSTEM

ULTRABOND FR fire rated aluminium composite panel only uses the highly recognised PVDF Kynar 500 or FEVE paint systems known for their high durability and optimum resistance to weather and industrial pollution.

FIRE RATED CORE

ULTRABOND FR fire rated aluminium composite panel has been thoroughly tested to the Australian Standards by NATA approved CSIRO and Warrington Fire including full room burn tests.

LOW MAINTENANCE

The ULTRABOND FR fire rated aluminium composite panel finish has undergone 40+ years of exposure testing which is continuing to confirm the superior properties of fluoropolymer coatings that require minimal maintenance.

UNLIMITED CUSTOM COLOURS
